

guardianERM.net

What is GuardianERM.net

A comprehensive and integrated web-based system designed to automate and streamline important risk management, audit, governance and compliance activities including tracking, monitoring and reporting. GuardianERM.net allows users to:

- Record, analyse and manage risks.
- Record and evaluate controls.
- Develop continuity and response plans.
- Profile all types of risks.
- Conduct audits and self assessment.
- Record incidents and track treatment plans to completion.
- Plan and sign-off compliance tasks.
- Monitor, escalate and report status of activities.

Information is always at your fingertips
